

**Update Feb 2008**

*Wouter in his elements...  
making all the technical  
drawings.*

*Clear and easy to understand  
for us and our future  
customers who prefer  
to assemble their own  
Sirocco NG*

*Good view over the basic  
wing structure.*

*Sietse at work, mounting the  
trailing edge.*

*One of the nice pictures we  
received*
